

# Bike Share Prediction

Wireframe Documentation

# Homepage

We created a simple UI for our project. It has input fields and one submit(predict) button at the end.

**Please enter details to predict Bike Share**

**Date**

**Select hour for prediction**

**Is this day a holiday?**

**Weather type**

**Temperature in Celsius**

**Humidity**

**Wind speed**

Predict

After the result the page looks like this:

**Please enter details to predict Bike Share**

**Casual share is : 348**

**Registered share is : 3048**

Date

mm/dd/yyyy

Select hour for prediction

Whole Day

Is this day a holiday?

No

Weather type

-- please select weather --

Temperature in Celsius

Humidity

Wind speed
